

ASSEMBLY INSTRUCTION

STEP ONE Install the Increment Plate Holder onto the MX Cradle [can be attached to either end, as user prefers]. Ensure that the two 'ears' at the back of the Holder are inserted into the two holes on the Cradle end. Push down to confirm that it is fully latched to prevent Holder from coming loose. Repeat on the other Cradle.

STEP TWO When placing the Magnetic Increment Plates into the Holder, ensure that the Magnets are facing outwards and the printed text facing inwards

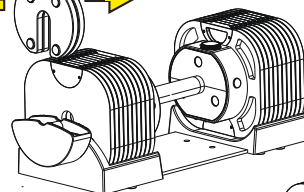

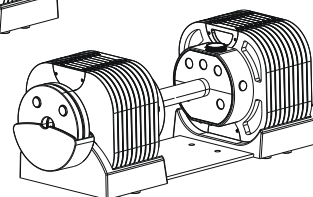

1.25 lb / 0.57 kg

from each other in holder

STEP THREE When attaching the Increment Plates to the Handset, face the magnets towards the body of the Handset. Securely locate the magnets of the Increment Plate into the recessed holes. The Handset also features guide grooves, which align with the opening on the Increment Plate, to assist correct positioning.
